FREE ADVERTS.

Arkangel is an internationally renound zine that provides a wealth of AL news from all areas of the movement. Arkangel also encourages its readers to use its Comment pages to debate the current issues within the Animal Lib movement. For more details contact Arkangel BCM 9240, London, WC1N 3XX, England.

Put down this freesheet. Now go & find 8 pence. Finding 8p isn't very hard. Even if you have to do it every day for a year.

Membership to the Brit ALF(SG) costs less than 8p a day. But a sub helps all those gaoled for AL actions. For more details contact SG(UK) BCM 1160, London WC1N 3XX, England.

OUTRAGE! On 19.12.94 Keith Mann was given a highly political 14 year prison sentence. This makes Keith the longest sentenced ALF prisoner. Keith has been deliberately targetted by the Plods because of his voluntary work with Arkangel. The Plods claim that Keith is a leader of the ALF. This is bollocks. The ALF, just like the ELF, has no leadership, no structure. Keith is an innocent victim of a corrupt system, run by speciesists, that allows sadistic scum to torture & murder animals & fuck up the planet, whilst compassionate people like Keith are caged for caring. In response to Keiths sentence the activists themselves have given one unanimous message "the War goes on...."

GERMAN ANTI-NUCLEAR MOVEMENT 2. GOVERNMENT 0. In the summer of 1994 activists in Gorleben said piss off to the Governments idea of using their village as a 'temporary' nuclear dump. Having failed to win their way at Gorleben the Government looked to Wendland. Activists learnt that the nuclear shipment was due sometime in November. On 5.11.94 (which incidentally was an Earth Night) 2,000 activists blocked all the important approach roads to Wendland. Following the road block actions happened nearly every single day (& night). Actions were both big & small & included economic sabotage. On 24.11.94 the Government tried to get the nuclear shipment in by rail. Despite a ban, 2,000 activists blocked the railway line. Actions continued for the next few days, including tents being erected in front of a nuclear power station in Phillipsburg. With all this mass civil disobedience taking place the judge at Luneburg decided to prohibit the transport of nuclear material. (Peace News Jan 95).

COMMUNITY DEFENDER IN PRISON. Garfield Gabbard (a Green @narchist & ALF/ELF supporter) is currently serving 4 years for carrying out community justice to a child molester. Child molesters, rapists & all other sex abusers are pure evil scum. Letters of support should be sent to Green @narchist Political Prisoner, Garfield Gabbard DH2017, HMP Swaleside, East Church, Kent, ME12 4AX, England.

HELP. WE'VE BEEN KIDNAPPED! In September 94 several Canadian Earth First! activists were arrested during a demo. Once all safely locked inside the police van, 1 activist produced a mobile phone & called the police station to say "We've been kidnapped by 2 men. They threw us into their van. We're heading north!" As Canadian Cops are as intelligent as British Plods, a cop car was dispatched to track the kidnappers. When everyone finally turned up at the police station both sets of cops were more than slightly red faced. (Underground #2).

ALF INTERNATIONAL. New Zealand's Cancer Society's Daffodil Day 94 was once again spoilt when the ALF caused mass economic sabotage to CS property. A report from Finland shows that over the summer 59 ALF actions happened in just 2 months! In Israel recent ALF actions include the etching/smashing of fur shop windows & the glueing of locks. All over the world the ALF is active. Compassion is international.

BY ANY MEANS NECESSARY

CREATING YOUR ALTERNATIVE MEDIA (PART 1). The system will always try to censor the views of those that disagree with the status quo. Big business, Governments, meat eaters, earth rapists & animal welfarists run both the mainstream media & a lot of the alternative stuff. Therefore if you want to get the truth out to a large number of people you need to create your own media.

FLY POSTERS are a great way to get messages to the public. All you need to do is produce an eye catching poster with all the information you want to give concentrated into a few sentences. Once you have your 'flyer' designed, find a cheap photocopier & reproduce it how ever many times you want. All you need to do then is go & stick'em up.

To stick up a flyposter don't bother with any expensive manufactured paste. A bit of flour & water paste works fine. Just mix your flour & water, slap some on the back of the flyer & stick the flyer on the wall.

Armed with flyers & a bucket of paste, 2 activists can plaster an area in flyers on a single night. Its best to work in pairs when fly posting, so whilst one sticks the poster up the other can keep an eye out for Plods, etc.

As well as using the 'flyer' method to get info out on mass, you can also use flyers in the war effort. If you see a circus flyer, a poster for a hunts Point-to-Point, etc., get yourself a strip of white paper & a thick red pen. Very carefully produce yourself a 'Cancelled' notice. Then once again, slap on a bit of paste & stick the Cancelled notice over the abusers poster. Simple, but it works!

DEALING WITH INFORMERS/INFILTRATORS. There is much fear at the moment about informers/infiltrators. If you suspect someone of being a 'spy' read pages 295-308 of ECODEFENCE (3rd Edition). DO NOT, what ever you do, alert the person that they are suspected. If they are innocent then you just alienate an activist (or maybe even incite them to inform!). If they are a spy, then alerting them to your suspicions is no use what so ever. So before doing anything, read ECODEFENCE pages 295-308. Also see page 17 of Underground #2.

PAINTSTRIPPER SPECIAL. Most paintstripper is great at removing paint, however ECO-VEG@N readers might be interested to know that there are 2 paintstrippers that are of particular value. 'Safest Stripper' is made by 3M Corporation. It does not burn your skin or dissolve plastic, yet is powerful enough to remove the finish on a car. Safest Stripper is like a white putty & has a nice ability to cling to vertical surfaces. 3 hours after application the top surface of Safest Stripper takes on a crusty white appearance & looks inactive. Don't be fooled by appearances. Safest Stripper works for up to 30 hours and scrubbing it off merely means a larger surface area will be effected. Safest Stripper is sold in hardware stores.

Another brilliant paint remover is 'ST-100' made by Dupli-Colour. ST-100 is petroleum based (so it will melt plastic) & is sold in spray cans. When applied ST-100 gets straight to work. 30 mins after spraying it on a car bare metal will be exposed. ST-100 does not hold well to vertical surfaces & will run. ST-100 is sold in automotive parts stores.

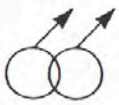

IMPORTANT NOTE: Some ECO-VEG@N readers are DIY enthusiasts. This is why the above article was included. Causing economic sabotage with paintstripper is illegal, very naughty, not nice for the victim & therefore should not be done!

AN OBSERVATION. For the last few years February 14th (Valentines Day) has been designated as an ELF Earth Night. The ECO-VEG@N bookies estimate that this years Valentines Night will also see a lot of action. "The Earth Liberation Front is a strictly nonviolent movement. No ELF action must ever endanger life. However damage to property is seen as the most effective form of protest".

HOMOPHOBIA:

The fear of feelings of love for members of one's own sex and therefore the hatred of those feelings in others.

HETEROSEXISM:
The belief in the inherent superiority of one pattern of loving and thereby the right to dominance.

smash fascism

PEOPLE NEED WATER NOT WEAPONS

Modern technology has made it possible to deliver a bomb across the world in minutes. Women in rural areas of Asia and Africa still walk several hours a day for the family's water supply.

EVANS UPDATE. Frank Evans is a bull torturer/murderer. On 4.12.94 a small demo was held outside Evans home. The demo consisted of 3 men & 6 women. Shortly after commencing Frank Evans drove off in his car. Next Mathew Evans (Franks son), came out of the house & showed a great deal of hostility to the protestors. He attempted to tear a banner & then broke a cane erecting said banner. Mathew was then joined by a friend & together these thugs assaulted the protestors. 1 young man was viciously beaten, knocked to the floor & repeatedly kicked. The demonstrator, believing in nonviolence, tried to stand up & walk away but he was knocked down for a 2nd time & kicked again. After the vicious & unprovoked assault a number of the demonstrators needed hospital treatment. The young man, kicked whilst on the floor, had a cut head & passed blood in his urine sample. His girlfriend, who had tried to defend him, had a large swelling on her head where she had been viciously punched. (Anti Bullfighting Committee)

SOMEONES NICKED THE CAR! In January 2 Plods pulled over a drunk driver (DD) in Burghfield Common near Reading. The Plods told the DD to sit in their car whilst they checked the DD's vehicle. Whilst the Plods checked the DD's vehicle, the DD climbed into the front seat of the Plod car & drove off. The Plods gave chance in the DD's vehicle but the DD lost them in the lanes. The DD then abandoned the Plod vehicle. A police spokesperson said "it is all extremely embarrassing". (The Daily News 16.1.95)

NEWS WANTED. Green @narchist, Underground (publication of the NA.ALF.SG) & a new zine to be published by Djurens Hamnare in Sweden all produce regular Diary of Actions that list direct action from around the world. However its very hard to list an action if we aren't told about it! If YOU hear of any direct action news, be it for the animals and/or the planet, PLEASE send the details to BM HEAL, London, WC1N 3XX, England. Diary of Action news sent to BM HEAL will be passed onto the North American ALF(SG) & Djurens Hamnare.

ECO-DEFENDERS SAY NO TO LIVE EXPORTS. Every night in Britain mass protests are taking place against live animal exports. Eco-Defenders are also joining in the fun. Earth First! activists were amongst the crowd who (on 15.1.95) descended on the farm of the Agriculture Minister, William Waldergrave. Live exports obviously involve using roads & these protests are a great way to focus on the EF! anti-roads campaigns.

Elves have also attended the demos. In Plymouth (14.1.95), whilst others were sitting in the roads blocking vehicles, some Elves visited a near by Vospers car showroom. The large front display window was smashed & 2 cars inside the showroom were trashed. Estimated damage £3,000.

The ALF & the ARM are also busy. Just before Christmas a hoax bomb was left on board a ferry at Shoreham Harbour (Sussex). In mid January an incendiary was left on the doorstep of Richard Otely, the farmer who organises the live exports from Plymouth docks (Devon). Justice Department made their mark last summer with their letter bombs to Stena Sealink et al.

PLOD CRACKDOWN. According to The Independent (27.12.94) "environmental terrorists are to be targeted by Special Branch as part of a change in security priorities". Police believe that ELF activity is set to escalate. "The growing concern over eco-terrorists follows the proliferation of environmental groups". "Nationally organisations such as the [Earth] Liberation Front & Green Anarchist have been credited with using booby traps to disrupt work at several motorway sights". The paper also reported that more time & money will be spent monitoring public demos & targeting animal libbers.

Boots
TORTURE ANIMALS

PRISONER UPDATE: Brit AL PoWs Ken Edmonson & John Attwood (real name Dale Johnson) have been released on bail. American AL PoW Rod Coronardo has also been released on a $650,000 bail with the conditions of electronic tagging.

There are 5 new remand prisoners. Brit hunt sab Sean Creagan was remanded following a demo against the new Criminal Justice Act. He will be released in early February. Brit ALF Press Officer, Robin Webb, has been remanded after he made comments that would allegedly discourage people from buying Tescos eggs. Ex-AL PoW Barry Horne is back in prison, remanded for handling stolen goods & theft (the charge is AL related) & for failing to turn up to court last year in connection with another AL 'offence'. Jeanette McClunnan & Gillian Peachey have been remanded charged with planting at incendiary in a hotel which was to host a fox hunt meet. Both women were also arrested a few months ago charged with Poultry Liberation Organisation activities. Although the charges against Jeanette have been dropped an assault charge, gained during the time of her arrest, still stand.

On 15.12.94 a Swedish court found a 17 year old female activist guilty of damaging a fur shop window. She was given a £130 fine & ordered to pay the furrier £166 to replace the damaged window.

Native North American, Milton Born With A Tooth has been added as an EL PoW. He is serving 16 months for protecting the Peigan Nation against Canadian Government invaders who want to dam the Oldham River.

INFO WANTED: Nigerian Eco-activist Ken Saro-Wiwa is facing execution on trumped-up murder charges. He has been set up because of his opposition to the effects, on his community, of Shell's oil exploration in the area. If anyone has a contact address for Ken contact BM HEAL as soon as possible.

The following people have all been jailed for their actions in defence of the planet & its inhabitants. Because of space limitation no PoW address has been noted. If you would like a PoW listing send 50p + an SAE to Earth Liberation Prisoners (ELP), c/o MSEF!, Box 23, 5 High Street, Glastonbury, Somerset, England. Or if you can't offord 50p just send an SAE to BM HEAL.
